PROFESSIONAL SUMMARY

Frontend Developer with a Diploma in Computer Science Engineering and a strong foundation in HTML, CSS, JavaScript, React.js, and Tailwind CSS. Passionate about creating responsive, user-friendly, and visually appealing web applications. Eager to contribute to a dynamic team while continuously learning modern frontend technologies and best development practices.

PROJECTS

Web-Based Hotel Management System

March 2026 – Present

Technologies: HTML, CSS, JavaScript, Node.js, MongoDB

- Developed a responsive web-based hotel management system.
- Implemented room booking and customer management features.
- Integrated a Node.js backend with MongoDB for data storage.
- Deployed the application on Vercel for online access.

TopSwing Golf Website

May 2026 – Present

Self-Initiated Project

- Developed a responsive and visually engaging golf club website with a modern user interface.
- Implemented smooth scroll and interactive animations using GSAP to enhance user experience.
- Designed responsive pages for golf services, academy, events, and café with seamless navigation.
- Optimized website performance and successfully deployed the project on Vercel.

College Website

Oct 2025

Academic Project

- Developed a fully responsive college website with a modern, clean, and user-friendly interface.
- Designed and developed multiple pages, including Home, About, Courses, Faculty, Admissions, Gallery, and Contact.
- Implemented interactive features such as navigation menus, image sliders, and form validation using JavaScript.
